UPDATE #2

EFFECTIVE JAN. 1, 1982

Dear Friends,

The past 6 months have been one of the busiest periods in our young history. We have been growing and expanding and improving our efficiency; all in an effort to serve you better now and long into the future. Our mini-picture tour tells the story better than we could.

First, we added on. Our existing 5,500 square foot building has been shrinking on us everyday! So when we got back from the National Convention we ripped off our 25 year old roof and added 2,500 square feet of space to our 2nd story. We now have almost 8,000 square feet of offices and warehouse - but it's shrinking again! Please stop by and visit with us if you're in the area.

Next, we added several new people. Most of you have already met Betty. She answers the phone and takes care of sending out catalogs and updates.

Terry Merrill joined us November 1st as our Parts Department Manager. Terry had been with Chevrolet for 13 years and brings a wealth of knowledge with him. He takes many of the parts calls now, freeing up Colleen to work on more and more new projects. This does not mean that Colleen and I are not around anymore - it just means that we get to go home at 6:00.

BETTY O'DONNELL

TERRY MERRILL

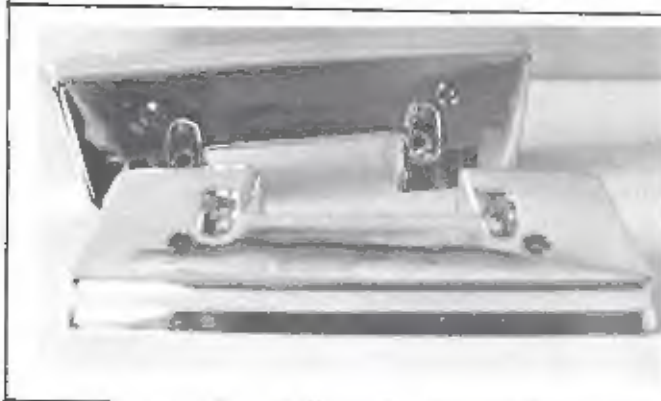

We also added a small computer to help keep the mailing list up to date - in fact, it printed the address label that brought you this update. It will also help us with inventory control and will soon print our new catalog.

If we always seemed out of breath when we've answered the phones this year, you can now understand why. Please come to Louisville and visit with us - but come soon. We're growing so fast we may have to move into a larger building next year!

Sincerely,
Rollo, Colleen & Ronnie
